CALIGRAPHIC BLACK LEAD PENCIL,

MANUFACTURED BY E. WOLFF AND SON,

No. 23, CHURCH-STREET, SPITALFIELDS, LONDON.

The Caligraphic Pencils have been invented by E. Wolff and Son, after the expenditure of much time and labour. They are the result of many experiments, and every effort that ingenuity and experience could suggest has been made to insure the highest degree of excellence, and the profession may rely upon their being all that can be desired.

They are perfectly free from grit; and for richness of tone, depth of colour, delicacy of tint, and evenness of texture, they are not to be equalled by the best Cumberland lead that can be obtained at the present time, and are infinitely superior to every other description of Pencil now in use.

The Caligraphic Pencils will also recommend themselves to all who use the Black Lead Pencil as an instrument of professional importance or recreation, by their being little more than half the price of other Pencils:—

| H, HH, HHH, HB, B, BB, F, FF, W* | 4s. per dozen. |

| BBBB | 12s. " |

* This Pencil is particularly recommended for writing and counting-house use.

An allowance on every gross purchased by artists or teachers. May be had of all artists' colourmen, stationers, booksellers, &c. A single Pencil will be forwarded as a sample, upon the receipt of postage stamps to the amount.

CAUTION.—To prevent imposition, a highly-finished and embossed protection wrapper, difficult of imitation, is put round each dozen of Pencils. Each Pencil will be stamped on both sides, "Caligraphic Black Lead, E. Wolff & Son, London."

* The usual trade allowance to stationers, booksellers, &c.

A show-box or specimen gratis with an order for a gross of Pencils.

THE PERFECT SUBSTITUTE FOR SILVER.—

The high estimate formed by the public during the ten years **RIPPON and BURTON'S** chemically purified material has been before it (made into every useful and ornamental article usually made in silver, possessing, as it does, the characteristic purity and durability of silver), has called into existence the deleterious compounds of "Albata Plate," "Berlin Silver," and other so-called substitutes; they are at best but had imitations of the genuine articles manufactured, with the view of satisfying the purchaser, by **RIPPON and BURTON**, and sold only by them.

NICKEL-ELECTRO-PLATED.—The **REAL NICKEL SILVER**, introduced and made only by **RIPPON and BURTON**, when plated by the patent process of Messrs. Elkington and Co. is beyond all comparison the very best article, next to sterling silver, that can be employed as such either usefully or ornamentally. In the lengthened and increasing popularity of the material itself, and the high character of the method of plating, the public have a guarantee that the articles sold by **RIPPON and BURTON** (and by them only) are, as it regards wear, immeasurably superior to what can be supplied at any other house, while by no possible test can they be distinguished from real silver.

Tea and coffee sets, waiters, candlesticks, &c. at proportionate prices. All kinds of re-plating done by the patent process. Detailed catalogues with engravings, as well as of every ironmongery article, sent (per post) free.

RIPPON and BURTON'S stock of General Furnishing Ironmongery is literally the largest in the world. They regret they cannot employ any language which will convey an adequate impression of its variety and extent; they therefore invite purchasers to call and inspect it.—**RIPPON and BURTON**, 39, Oxford-street (corner of Newman-street). Established in Wells-street, 1820.

MEAT is preserved free from taints in the hottest weather by **CARSON'S PATENT MEAT PRESERVER**; also salted, corned, &c. in fifteen minutes, without trouble, and may be flavoured with smoke, spice, &c. at the same time, if required. The juices of the meat are not dried up, making it more palatable and more wholesome. Prices (in small box, 11 in. by 5 in. 30s. 40s. and 50s. Her Majesty's butcher, Wm. Giblett, thus speaks of this instrument: "Sir, —With your instrument I find that meat can be salted with a strong brine in twenty minutes, as if the same had been in salt a week. I think it useful in private families, as well as to butchers. 110, New Bond-street." Wholesale depôts at C. HOCKIN and Co.'s, 38, Duke-street, Manchester-square, and 1, Bishopsgate-street Within, London.

BORROW a RAZOR!!! "Go a borrowing, go a borrowing," is an old lady's adage, and may be true with reference to gold or silver, but it is not true as regards Steel Razors, and ought not to influence gentlemen, either young or old.

The **DIAMOND-EDGE UNPOLISHED RAZORS*** at 2s., 2s. 6d.; and ivory 3s. 6d. each; and **JOHN TEETGEN'S LONDON RAZOR STROP** (Philosophical) of 1845, at 1s. to 6s. each, are submitted for trial on LOAN. The proprietor,

JOHN TEETGEN, 10, OPPOSITE BISHOPSGATE CHURCH, hopes that this offer will be embraced by all who do not shave as they can and should do, viz. quite clean, and with a sense of pleasurable relief; those who from painful experience may be doubtful of this being effected, are entreated to give J. T. the benefit of the doubt; try his Razors, be astonished and delighted.

The **RAMBLER POCKET DRESSING CASE**, 7 inches long, 3½ wide, and 1½ deep, contains Strop, Razor, and Comb; Tooth, Nail, Shaving, and Hair Brushes. 15s. 4d. complete.
